

Dr. Trobe tested ! Dr. Wheelock approved !

Michigan and the entire Medical World were horribly shocked to learn of the new lower U of M Medical Standards approved by Dr. Mike Smith Wheelock, Dept. Associate Chief of Clinical Affairs at the Taubman/Kellogg Facility. "Dr. Mike", also known as, "the good old boy" among his cronies, has approved the use of invasive Kleenex by Clinical doctors " to occlude " the patient's eyes during U of M vision exams. This is all part of our " appropriate care provided to our patients, in keeping with accepted standards of medical practice." The handicapped patient could be reached but was unable to comment because he was choking on his own fluids, caused by the allergic reactions of his body to the new Kleenex policy !

How about a Dr. Trobe IME !?
Just when you thought it was a

patient's right to have an unbiased, safe, professional IME, "End Doctor," Dr. Jonathan Trobe,

The lowering of U.of M.Clinical Medical standards rocks the Medical World !

throws his U. of M. Clinic patients a huge curve ball by breaking with any previous professional, ethical, and medical protocol ! "Dr. No," as he is nicknamed by his PIP insurance victims/patients, comes to the IME with less ethical preparedness than that of a back alley abortionist ! And Michigan Insurance companies are happily doing client termination backflips to have found this 70 year old, shameless, archaic, ex-Ivy Leaguer to do their malicious bidding !

Preparedness

We don't need no stinking Preparedness ! Dr. Trobe has the unique ability to deny any patient benefits without even looking at any valid patient medical records from their primary care Doctor or patient specialist, who may actually be trying to bring the patient some kind of Quality of Life ! It seems there are way too many segues to Nazi Germany being tossed about these days to describe the seeming loss to people's rights, so I won't stop hinting at it, until someone can better explain Trobe's actions. " I was only following insurance company orders on how to mistreat PIP patients !" J.T.

Questions

Sure you can bring all the questions and paperwork in your defense that you want to the IME with Dr. Trobe, but getting an unbiased, professional answer ? You poor naive lamb to slaughter, guess again ! Trobe don't play by those kind of rules, this is his IME and you are just the hot body he needs to get \$1,000 - 6,000 for enduring your vile presence for barely twenty some minutes ! Expect this generic response to any of your questions from the biased, lab coated, insurance prostitute, "I've made my, No decision, In favor of the insurance company even before you came in here, so shut your mouth and take your lame defense and get out !" J.T.

You've been Trobe-a-tized, if you!

- Need a paid attorney to get your copy of the Trobe IME (Indep. Medical Exam)
- Spend thousands of dollars to fruitlessly fight Dr. Trobe's negative insurance IME !
- Get told by countess attorneys that "that's the way it is with insurance IMEs",accept it!
- Trying to talk w/ U of M staff about the bad IME, and to find them covering posteriors!
- Realizing the U of M Clinic's Trobe motto should be, Abandon all Hope Ye Who Enter!

Actual reenactment of the New IME, U of M Clinic policy victim, Shawn Wieland !
